

What We're Doing about COVID & Camp

If you or your child are exhibiting any of the following symptoms: fever, sore throat, cough, shortness of breath, loss of taste or smell, nausea/vomiting and diarrhea, do not come to campus/camp.

- Each camper will be emailed a temperature log, to be completed at home 7 days prior to the start of camp (Start on June 30th)
 - This will be turned in at registration, signed by the parent/guardian.
- Each camper will have their temperature taken by our Athletic Trainer upon entry into the building each day of camp. If measured at or above **99.5** degrees Fahrenheit, your child will not be allowed to enter the facility for that specific day.
- After a successful temperature check, each camper will sanitize their hands & check in each day and have an assigned court for the entire day. They will **ONLY** be on that court for the entire day. There will be no rotation on courts.
- Each court will have a maximum of 20 campers and 2-3 coaches.
- Each court will have their own cart and volleyballs, which will be sanitized each day.
- Each court will have a bottle of hand sanitizer available for use throughout the camp
- Campers are welcome to wear a mask, if desired. Masks are not required at this time
- The only rotations will occur with camp coaches.
- Campers must bring their own water bottles and water each day.
- There will be no handshakes or high fives (really hate this one!!)
- If campers leave for lunch, they will be required to wash/sanitize their hands before re-entering the facility.
- Campers are required to wash hands after using the rest room.
- No spectators will be allowed during camp
 - Parents may accompany their children to check in and then will be asked to leave and wait in their car until camp is over.
